Michal Kozák

IT admin turned DevOps guy who tries to learn everything at once all the time.

Employment History

Site Reliability Engineer at Keboola :(){:|:&}; s.r.o., Prague

November 2023 — Present

Spearheading the transition to GitOps-based deployments using Argo CD, developing Helm charts, owning GCP (governance, cost management, improvements, etc.), providing expertise in GitHub Actions pipelines (infrastructure automation, build workflows, monitoring, etc.), working across all three major cloud providers, maintaining Azure DevOps pipelines, and prototyping a Kubernetes operator with a custom runtime for AI agents.

Cloud Platform Engineer at Ataccama Software, s.r.o., Prague

November 2020 — July 2023

Developing and maintaining IDP stack in Azure, incl. self-hosted GitLab, Artifactory or Harbor. Go-to guy regarding CI/CD pipelines, build and release processes. Helm chart pipelines and development. Automatization scripts in Python/Bash/Groovy, Docker images optimization, monitoring with Grafana and Prometheus/VictoriaMetrics, configuration as code using Terraform/Terragrunt, simple Gradle plugins.

IT/System Administrator, DevOps at GRIP Digital, s.r.o., Prague

April 2019 — November 2020

Do-it-all role, from desk-support to DevOps. Deployed back-end for unannounced project to AKS, including NGINX Ingress or ELK. Later moving the same project to EKS, utilizing NLB, CloudWatch, S3, and more, including CI/CD pipeline from TeamCity using Docker images. Also managing company's on-prem infra with a multitude of internal tools (Plastic SCM server, YouTrack, Upsource and others).

IT Administrator at 2media.cz, s.r.o., Prague

September 2012 — September 2020

Remote tech support for Windows and macOS machines, Ubuntu VPS management with custom Postfix server, Let's Encrypt and OpenDKIM.

Digitization & IT Administrator at Universal Music, s.r.o., Prague

April 2010 — April 2019

Responsibility for all IT, on-site support (SW/HW), local Windows server, Active Directory, basic HTML/CSS coding, AS/400, audio mastering, video processing.
